A dog's life at MiMA

MiMA, the new 63-story mixed-use glass tower developed by Related Companies featuring luxury rentals and condominium residences and located at 450 and 460 West 42nd Street, has opened Dog City, an ultra-luxury service for New York's luckiest urban dogs.

Dog City is a new service and facility offered exclusively to MiMA residents. The 1,300 s/f indoor and outdoor facility offers everything imaginable for their pooch right at their doorstep, from nanny services for puppies to grooming, washing and training, to play dates, running sessions and veterinary services.

"Many of Related's buildings have amenities for dogs, but with MiMA we wanted to do something that hasn't been done before and is above and beyond our residents' expectations," said Daria Salusbury, who leads Related's luxury residential leasing operations.
