### The Residences Viceroy Snowmass

After being postponed in 2009, the ski-in/ski-out residences at Viceroy Snowmass hit the market last November as Aspen's most stylish new condominiums. Designed by Jean-Michel Gathy, the 152 full-ownership units offer a contemporary take on mountain decor, mixing black granite tile flooring and oak wall panels with colorful patterned textiles, Sferra linens, and deep soaking tubs. Units range from 432-square-foot studios to 2,600-square-foot, four-bedroom residences, and are priced from \$252,000 to \$2.5 million. The condominiums sit adjacent to the Assay Hill lift at Snowmass—the Aspen area's biggest and best ski resort for families—within the Viceroy hotel, which offers ski valet services and includes a Kelly Wearstler-designed pool terrace and a 7,000-square-foot spa by Gathy. 855.923.4500, [www.viceroyresortmass.com](http://www.viceroyresortmass.com)
